Charan Gutti

Student at ICFAI / Full Stack Developer
Hyderabad, Telangana, India

Summary

I am a student at ICFAI Tech Hyderabad. Currently working on multiple projects / applications which can solve real world problems. I am very invested in my current field of study which is the computer science. Always experimenting and hopefully failing to gain the curiosity to learn new things for me to advance.

Experience

GIGSearch

Frontend Developer

June 2024 - August 2024 (3 months)

England, United Kingdom

Contributed to the frontend development of The Gig Search platform, focusing on creating an optimized and user-friendly landing page experience. Key responsibilities included:

- Developed and enhanced the landing page frontend using modern web technologies, ensuring responsive design and cross-browser compatibility
- Implemented SEO best practices to improve search engine visibility and organic traffic, including meta tag optimization, structured data implementation, and performance optimization
- Collaborated with the design team to refine user interface elements and improve overall user experience through iterative design improvements
- Conducted code reviews and maintained clean, scalable code standards throughout the development process
- Worked closely with cross-functional teams to align frontend development with business objectives and user requirements

Demonstrated strong technical skills in website development while gaining valuable experience in mobile application development principles. Recognized for outstanding dedication, professionalism, and exemplary performance throughout the internship period.

Education

ICFAI Foundation for Higher Education, Hyderabad

Engineer's degree, Computer Science · (July 2022 - December 2026)
